

FIRST HIVER

- **FIRST HIVER** is compatible with all types of treatments, except UV rays. It protects your pool against algae growth during winter. It is guaranteed copper free, EDTA free and polyphosphate free.
- **FIRST HIVER** allows, if necessary, to bathe after being added ; in that case, you will have to repeat the treatment at final pool closing.
- **FIRST HIVER** must be used when pool water temperature is lower than 16°C. At spring, uncover pool when the weather is better, and begin usual treatment.

Packaging description :

	5 L
Bottle: colour	White
Height	291mm
Label	160x125 R/V
Visibility line	No
Tactile symbol	Yes
Cap : colour	Blue
Child proof	No
Box : Kraft + label	Yes
Printed	No
Of	4 bottles
Delivered on Euro pallet of	112

Using method :

- For all treatments it is indispensable to clean pool properly before winterising, and to bring pH back to its balance zone according to water quality (between 7.2 and 7.6).
- Put **FIRST HIVER** directly into the pool in front of the outlets and leave filtration to run for at least 4 hours.

DOSAGE : about 0,5L - 0,7L of FIRST HIVER per 10 m³ of water

Example. : Pool volume 0 to 20 m³ : 1L of FIRST HIVER.

Pool volume = 50 to 70 m³ : 4L of FIRST HIVER. Pool Volume = 90 to 120 m³ : 7,5L of FIRST HIVER

Safety :

FIRST-HIVER is irritant to eyes and skin

- ◆ In case of eye contact, wash immediately with plenty of water. Seek medical advice in case of irritation.
- ◆ Avoid skin contact. Wash hands properly after handling.
- ◆ Keep out of reach of children.
- ◆ To avoid any accidental swallowing, do not eat, smoke or drink during use.
- ◆ Do not mix with other chemicals.
- ◆ Do not put residuals in sewer.
- ◆ If swallowed, seek medical advice immediately (show the label or container).

Preservation : Store in cool dry place.

Close container well after use.
