Delivered on Euro pallets of	24 drums

Using method / doses :

- See instructions for use of the REVA 3 COOL.
- Leave the REVA-CHLOR liquid bottle as far as possible from the REVA 3 COOL.

Safety :

Warning : do not use combined with other products, hazardous gas (chlorine) may be liberated.

REVA-CHLOR Liquid is not subject to regulatory labelling. However, it is recommended to:

- ◆ Keep the product out of reach of children .
- ◆ Avoid contact with skin and eyes.
- ◆ In case of contact with eyes, wash immediately with plenty of water and seek medical advice .
- ◆ In case of contact with skin, wash immediately with plenty of water.
- ◆ If swallowed, seek medical advice immediately and show the label.
- ◆ Rinse bottle into the pool before disposal.

Warning: REVA-CHLOR Liquid is incompatible with organic chlorine (trichloro, Dichloro) that is to say that putting the 2 types of product in contact (solid organic chlorine + concentrated solution of hypochlorite) may cause explosions, or coma (gas). (no incompatibility once the products are in pool water: dilution effect).

Storage: Store in a cool dry place, away from light and sun.

After use, close by fastening the cap until it is blocked

Composition : sodium hypochlorite with about 3,6 % of active chlorine, that is to say 12,5° chlorometric.

Shelf-life: 6 months from manufacturing
