

REVA - KLORIT

Calcium hypochlorite granules with 71 % of available chlorine

- Particularly suitable for soft or medium water.
- 24 hours before treating with **REVA KLORIT**, treat your pool with **STOP-CALCAIRE**.

Vantages : does not bring any stabiliser into the water. Avoids then to have over-stabilised chlorine.

Packaging description :

	5 kg	25 kg
Pail : Colour	White	White
Height	200mm	420mm
Label	125x265	125x265
Tactile symbol	yes	yes
Homologation	yes	yes
Lid : Colour	White	White
Childproof	No	No
Box : Kraft + label	Yes	No
Printed	No	No
Of	4 pails	-
Delivered on Euro pallets of	21 boxes x 4 = 84 pails	18 pails

Using method :

Shock chlorination dose: 75 grams per 10 m³ (to be measured with the dosing jar)

- **24 hours before treating with REVA KLORIT, treat your pool with STOP CALCAIRE.**
- Use of REVA KLORIT :
 - ✓ For tiled pools: disperse the product in front of the outlets. (leave the filtration system to run for about 4 hours).
 - ✓ For liner or polyester pools: dilute the product in a pail before pouring it in the pool (15 grams of **REVA-KLORIT** per litre of water).
Leave the filtration to run for a few hours.

Safety :

REVA-KLORIT is flammable, corrosive and harmful if swallowed. Moreover, it is dangerous for aquatic organisms.

- ◆ In case of contact with eyes, wash immediately with plenty of water. Seek medical advice.
- ◆ In case of contact with skin, wash immediately with plenty of water.
- ◆ In case of accident or if you feel unwell, seek medical advice immediately (show him the label)
- ◆ In order to avoid any accidental swallowing, do not eat, smoke or drink during use.
- ◆ Keep out of reach of children.
- ◆ Keep locked up.
- ◆ Do not breathe fumes from the product when opening the packaging.
- ◆ **Do not mix calcium hypochlorite (REVA-KLORIT) with other chemicals, especially with acid products; in case of contact, it liberates a toxic gas and the reaction may be explosive.**

- ◆ Never add **REVA-KLORIT** into a skimmer containing an organic chlorine tablet. Never use at the same time as organic chlorine granules.
- ◆ **Warning! Oxidising product. It helps combustible materials to burn.**
- ◆ Do not release residuals in sewer.
- ◆ Rinse the empty packaging into the pool before disposal.

Warning : REVA KLORIT is incompatible with organic chlorine (trichloro, dichloro, multifunction tablets...) that is to say that putting these 2 product families in contact with each other (solid organic chlorine + solid hypochlorite) may cause explosions or comas (gas).
NB: once diluted in the pool, the products are not incompatible anymore (dilution effect)

Storage :

- ✓ Keep in a cool dry place.
- ✓ Close container well after use.

Composition : Non hydrated calcium hypochlorite, with 71% of available chlorine

Shelf-life : 3 years
