

TH - PLUS

To increase TH in a pool

- TH-PLUS increases the TH in a pool

Description of the packaging :

	4 kg
Pail : Colour	White
Height	200 mm
Label	125 x 265
Tactile symbol	yes
Homologation	yes
Lid : Colour	White
Childproof	No
Box : Kraft + label	Yes
Printed	No
Of	4 pails
Delivered on Euro pallets of	21 boxes x 4 = 84 pails

Using method:

- Calculate your pool TH with the **CALCAIRE-Test** or your professional test kit.
- The ideal level of TH to maintain a pool is 100 mg/L
- 11 grams of **TH-PLUS** per m³ of water are necessary to increase the TH by 10 mg/L.

Example :

For 10 m³ : TH at 6°F. You want to bring the TH up to 10°F – Difference = 4 points

You must add 4 x 11g x 10m³ = 440 g = 0,45 KG of **TH-PLUS**

If the pool is 80m³ : Quantity to be added : 0,45 Kg x 8 = 3,6 Kg

- Put the necessary (calculated) quantity of **TH-PLUS** into the pool, and disperse it as much as possible (you may also dilute it in a pail of water). Leave the filtration system to run for a few hours.
- Check the TH after.

Safety :

TH-PLUS is irritant to eyes.

- ◆ In case of contact with eyes, rinse immediately with plenty of water. Seek medical advice.
- ◆ Keep out of reach of children.
- ◆ Avoid contact with skin. Wash hands properly after handling.
- ◆ In order to avoid any accidental swallowing, do not eat, smoke or drink during use.
- ◆ Do not mix with other chemicals.
- ◆ If swallowed, seek medical advice immediately and show the container or label.

Storage: Keep in a cool dry place.

Close the container properly after use to prevent the product from solidifying.

Composition : Calcium chlorite.

Shelf-life : 3 years

Technical information given without any contractual warranty.
